Fight the Flu Season Naturally

Chiropractic corrects spinal abnormalities called vertebral subluxations that result in interference of the nervous system by placing pressure on nerves. Since the nervous system controls all functions of the body -- including the immune system -- chiropractic care can have a positive effect on immune function

Meet the Doctors!

Drs. Joey and Taryn Lowery are excited at the opportunity to serve Calhoun! They are Board Certified and Licensed in the state of Louisiana. Dr. Joey's interest includes working with athletes. He is a Certified Strength and Conditioning Specialist as well. Dr. Taryn's loves the opportunity to work with kids and pregnant women. She is presently working on her Certification with the International Chiropractic Pediatric Association. Contact them today for an appointment!

We look forward to serving
you!

Kids Need Chiropractic Care Too!

Healthy Spine = Happy Baby!

Just as it is recommended that children get regular dental checkups, it is important for kids to have their spines checked from birth onward. The only professional qualified to do this is a chiropractor. More and more, educated parents are choosing to take their children to chiropractors regularly, because they see that their children are healthier and happier!

Golfers Benefit from Chiropractic Care

Competitive Runners

Competitive Bikers

Sports Corner

Chiropractic care has been shown to greatly benefit athletes in all sports. Athletes who are under regular Chiropractic care see such benefits as improved balance and coordination, enhanced mental clarity and focus, reduced incidence of strain/sprains, decreased recovery time from any sports related injuries.

Headache Sufferers

If you have a headache, you're not alone. Nine out of ten Americans suffer from headaches. Some are occasional, some frequent, some are dull and throbbing, and some cause debilitating pain and nausea. Research shows that spinal manipulation – the primary form of care provided by doctors of chiropractic – may be an effective treatment option for tension headaches and headaches that originate in the neck.

Chiropractic Care For Mothers to be

One of the bonuses of chiropractic care is that women who have regular adjustments before labour and birth experience shorter labour times. On average, first time mothers who were adjusted during their pregnancies achieved 25% shorter labours than women who weren't under chiropractic care. Women who had previous children and were under chiropractic care experienced 33% shorter labours than women who weren't seeing a chiropractor during their pregnancies!

We would like to thank you for taking time to read our newsletter. We strive to provide valuable educational information to the public on the numerous benefits of Chiropractic care. We look forward to serving you and your family. Thank you again and God Bless!
